

ASI Sample Seal Kits

For a sales force of one or many, it is essential to possess the necessary tools available to introduce products to potential customers. A comprehensive and professional presentation is a key element to sales, and all too often, descriptions and diagrams fail to adequately illustrate and showcase the innovative features and unequalled craftsmanship of the **ASI** mechanical seal. In our ongoing commitment to assist our distributors and manufacturing representatives in sales development, **ASI** is pleased to now offer convenient sample seal kits in compact, attractive cases.

Give customers the opportunity to view firsthand the quality construction of ASI mechanical seals.

ASI's sample seals are available in standardized kits for general use and customized kits for specific needs. Carrying cases and tool kits are also available to help organize existing sample seal stock. Consult **ASI** on any variations.

Standard Sample Kit

Dimensions:

12-3/4" X 9-3/8" X 5-3/8"

Custom Sample Kit

Use the list of sample seals to build your own kit. Space is limited to only two or three seals, depending on size and model.

Advanced Sealing International

Purchase sample seals individually, create your own kit, or add to the standard kit.

All prices are Net.
